E Solutions™ branded products and options are designed to exceed current energy and environmental standards. We have made a conscious commitment to developing environmentally innovative products that allow our customers to make energy efficient, eco-conscious choices. Products included in the **E Solutions** portfolio reduce costs, improve bottom lines, and enhance both equipment performance and service life. The PRO³ Top Mount and Side Mount packaged refrigeration systems have a reduced refrigerant charge compared to comparable split systems. Also, EC motors are available for the evaporator portion of these units for increased energy efficiency and decreased energy costs. Visit www.heatcrafttrpd.com/esolutions for more information.

Nomenclature

Features and Benefits

The PRO³ Top Mount and Side Mount packaged refrigeration systems combine evaporator and condensing unit into one unit expediting installation time and reducing refrigerant charge — saving time, money, and energy.

These systems are designed to maximize storage space inside walk-in coolers or freezers and are ideal for small- to medium-sized restaurant and convenience store applications.

Systems are fully-assembled, evacuated, charged, run-tested and wired at the factory. No additional components are required.

NSF listing applies to evaporator grill portion.

Primary Application		
Optimized for indoor use	✓	Available
Optimized for outdoor use	Available	✓
Aesthetics		
Maximum vertical storage capacity	✓	
Restaurant-quality brushed-aluminum finish	✓	✓
Performance		
Recommended for temperature pull-down		✓
Ideal for holding temperature	✓	✓
Maximum airflow		✓
Medium-temp defrost		✓
Environmentally Friendly		
Reduced refrigerant charge	✓	✓
R-404A ready	✓	✓
Energy Efficiency		
PSC Motors	✓	✓
EC Motors (Evaporator section only)	Available	Available
Ease of Installation		
Pre-charged with refrigerant	✓	✓
No refrigerant piping required	✓	✓
Evaporative condensate pan	✓	Drain line needed
Controls		
Microprocessor control	✓	✓
Reliable Durable		
Liquid-line filter drier	Medium and large cabinet only	✓
Two-year parts warranty	✓	✓

New EC Motors for PRO³ Top Mount Packaged Refrigeration Systems

Introducing the most energy efficient motor available for packaged refrigeration systems. Choosing energy efficient motors for your packaged systems can provide significant energy savings and lower operational costs. Additionally, because these motors can help reduce heat load (and system run-time), they can improve the reliability and longevity of refrigeration equipment.

Electronically Commutated (EC) motors even further improve energy efficiency and equipment reliability. EC motors by InterLink™ are up to 75% efficient – that's a 51-59% increase over shaded pole motors and a 30-35% increase over PSC motors. As with PSC motors, you save money both directly from a decrease in motor watts and also from a reduction of heat gain into the refrigerated space.

Permanent Split Capacitor (PSC) motors can significantly lower your energy costs. PSC motors average 30-35% higher efficiency than shaded pole motors and offer dual energy savings by reducing motor watts and heat gain into the refrigerated space.

Replacement Parts

Right source. Right parts. Right now.

InterLink™ is your link to a complete line of dependable and certified commercial refrigeration parts, accessories and innovative electronic controls for all Chandler equipment. At InterLink, we provide our wholesalers with a

comprehensive selection of product solutions and innovative technologies for the installed customer base. And every product is built to ensure the same high performance standards with which all Heatcraft brands are built — backed by a dedicated team to serve every customer need, delivering at the best lead times in the industry.

Dependable. Versatile. Courteous.

Finally, one simple source for all your replacement needs from a name you can trust.

For parts, please contact (800) 686-7278 or visit www.interlinkparts.com.
